PROFESSIONAL SUMMARY

Frontend / Full-Stack Developer with 3+ years of experience building scalable, high-performance web applications using modern JavaScript frameworks. Strong background in responsive design, accessibility, and RESTful API integration. Proven ability to deliver clean, maintainable code and collaborate cross-functionally to drive measurable business impact.

TECHNICAL SKILLS

- Frontend
HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Vue.js, Tailwind CSS, Responsive Design, Web Accessibility (WCAG), Cross-Browser Compatibility.
- Backend
Node.js, Express.js, REST APIs, GraphQL, Authentication & Authorization, Microservices Architecture.
- Databases
PostgreSQL, MongoDB, MySQL.
- Tools & DevOps
Git, GitHub, Docker, CI/CD Pipelines, AWS, Vercel.
- Testing
Jest, Cypress, Unit Testing, Integration Testing.

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Contract)

Client Project – Photography Business — United Kingdom
December 2025– January 2026

- Designed and developed a full-stack **Photography Web Application** using **Next.js, Node.js, Express, and MongoDB** for a real-world business client.
- Implemented **authentication and role-based access control**, allowing secure admin and client interactions.
- Built RESTful APIs and optimized backend logic, reducing average API response time by **30%**.
- Deployed the application on **Vercel**, setting up environment configurations and production builds.
- Improved SEO and performance using **server-side rendering (SSR)** and image optimization, increasing site visibility and load speed by **35%**.
- Worked directly with the client to translate business requirements into scalable technical solutions, delivering the project on schedule.

Frontend Developer Intern

National Institute of Information Technology (NIIT) — Nigeria
Jan 2023 – Jan 2024

- Developed and maintained responsive web interfaces using **React, TypeScript, and Next.js**, improving page load performance by **20–25%** through component optimization and code splitting.
- Built reusable UI components with **Tailwind CSS**, ensuring consistent design across desktop and mobile devices.
- Integrated **REST APIs** to fetch and display dynamic data, enabling smooth client–server communication.

- Applied **web accessibility (WCAG) best practices**, improving usability for keyboard and screen-reader users.
- Collaborated with senior developers during **code reviews** and followed **Git-based workflows**, improving code quality and team efficiency.
- Wrote basic **unit tests with Jest**, helping reduce UI-related bugs by **15%** during development cycles.

PROJECTS

Photography Web Application

- Built a production-ready web platform for a photography business using **Next.js, Node.js, and MongoDB**.
- Implemented responsive galleries, booking inquiry forms, and secure authentication.
- Optimized images and server-side rendering, improving page performance by **35%**.
- Deployed to **Vercel**, ensuring fast global delivery and high availability.

CasualsHub E-Commerce Platform

- Developed a full-stack e-commerce application using **React, Node.js, Express, and MongoDB**.
- Implemented product listings, cart functionality, authentication, and order management.
- Built a responsive UI with **Tailwind CSS**, improving mobile usability and user engagement.
- Optimized application performance and state management, reducing unnecessary re-renders by **25%**.

Real Estate Web Application

- Built a scalable real estate platform using **Next.js, REST APIs, and MongoDB** to connect users with property listings and agents.
- Implemented advanced filtering, search functionality, and protected routes for different user roles.
- Focused on clean architecture and maintainable code, improving long-term scalability and readability.
- Enhanced UX and page performance, resulting in faster navigation and improved user retention.

EDUCATION

BSc Computer Science.
Landmark University, Nigeria.
2024

CERTIFICATIONS
